Highly recommend going here. The staff is wonderful and the dentist is a perfectionist. I would never go anywhere else.

I had the most wonderful experience at NU smile! The doctor had the best bedside manner and put all my "dental worries" aside. The staff was so professional and friendly. I highly recommended them!

I have been to my share of dentists and this woman is by far the best !
Doctor Kianfar is the most kind and gentle dentist I have been to.
I don't feel like an isolated patient, I feel like she, as well as her staff, are here to help me as make me feel comfortable. I feel warm and welcome
She never over does anything, and always tells you what she recommends and what she doesn't think you need, and I feel very educated about my teeth and dental health after each visit.

She always asks if I'm okay while doing the procedure , takes her time, and will adjust EVERYTHING for you, just to make you more comfortable

I have never felt this comfortable and happy at a dentist, heck at any doctors office!
She understood my past experiences with pain after numbness while she cleans out a cavity, so she went slow, numbed me more, and even went and got a different tool to use just so I was completely at ease

If there was anyone who is looking out for you, your teeth, and your money, it's this doctor !
